<p>Objective: To support Libyan authorities to respond to the most urgent needs of at-risk populations in Libya whose vulnerabilities have been further exacerbated by the COVID-19 pandemic while promoting equitable access to the COVID-19 vaccines for all, including migrants.</p>						
<p>Outcome 1: Migrants and other vulnerable populations have improved access to overall health services, including COVID-19 services, to protect against disease spread</p>	<p># of individuals in detention centres and Points of Entry supported with provision of protective items</p>	<p>M&E records, site visit reports, project records</p>	<p>N/A</p>	<p>Yes – confirmation of receipt of protective items by Libyan authorities</p>	<p>7231 individuals in DCs and at DPs following disembarkation received PPE kits</p> <p>Six points of entry supplied with PPEs and equipment's Wazin,Ras Jader, Amsaad crossing Points. Mitiga, Misratha and Benina airports</p>	<p>IOM is able to access and provide services to target populations, with the cooperation of Libyan authorities in a safe operating environment.</p>
<p>Output 1.1: Increased access of vulnerable populations to basic items for prevention of communicable diseases</p>	<p>a) # of detained migrants receiving hygiene supplies to support the adoption of COVID-19 prevention measures</p> <p>b) # of migrants</p>	<p>Project records</p>	<p>N/A</p> <p>N/A</p>	<p>1,500 detained migrants in DCs (gender disaggregated)</p>	<p>1590 migrants (1,056 males, 316 females, 181 boys, 37 girls) received PPE kits that includes hygiene items and COVID-19 protective items at Triq Al-sekka, Ain Zara, Abusalim, Zliten, Aburshada, Zliten, and Sharaa Azzawiya DCs.</p>	<p>Libyan authorities are willing and cooperative in their project involvement. IOM can access target beneficiaries and follow up with them.</p>

	receiving hygiene supplies to support the adoption of COVID-19 prevention measures benefit from the provision of hygiene and sanitation keys in target urban settings	Project records		1,500 migrants in urban settings (gender disaggregated)	5,464 migrants (4,833 males, 361 females, 197boys , 73 girls) have received PPE kits during distributions at Tripoli Mian Port, Abusetta, Misfat Azzawiya DPs	
<u>Activities that lead to Output 1.1:</u> 1.1.1: Provide protective items including hygiene kits, sanitizers, soaps, gloves and masks to migrants in detention to reduce the risk of transmission						IOM has unimpeded, secure access to target groups, NFI supplies and transport/distribution services.
Output 1.2: Enhance the capacity of authorities working in detention centres and Points of Entry to prevent and respond to COVID-19 transmission and outbreaks	a) Number of COVID19 protective supplies procured and distributed to detention centre authorities	Project records	N/A	a) Supplies for at least 300 persons (50 people per DC)	177 male officials received PPE kits during health awareness-raising sessions conducted in four (4) detention centers (Tarik Alsekka, Ganfouda, Abu Rshada, and Ain Zara DCs) and two (2) disembarkation points (Tripoli Main Port and Mesfat Al Zawiya DP.	Libyan authorities are willing and cooperative in their project involvement. IOM can access target beneficiaries and follow up with them.
	b) Number of COVID-19 protective supplies procured and distributed to POE authorities	Project records	N/A N/A	b) Supplies for at least 300 persons (50 people per POE)	Surface disinfectant: 700 N95 masks: 1400 Surgical face masks: 1400 Examination gloves: 1400 Face shields: 2400 Gown :3600 Gogles: 500 Cover shoes: 20000 Alcohol solution 70%: 2000 Alcohol based hand rub gel: 2000	

	c) Number of POEs with enhanced capacity to address with health-related preparedness and response needs	Project records		c) Six POEs (Wazin and Ras Jedir, Amsaed, and Mitiga, Misrata and Benina airports).	Liquid soap: 700 Biohazardous bag: 200 Surveillance officer placed at Misratah airport and Ras Jadir entry point and surveillance system established.	
<p>Activities that lead to Output 1.2:</p> <p><u>1.2.1:</u> Provide PPEs and equipment to detention authorities of up to six detention centres to prevent and respond to COVID-19 transmission and outbreaks.</p> <p><u>1.2.2:</u> Provide PPEs and equipment to authorities of up to six Points of Entry, to protect themselves and travellers from COVID-19 transmission.</p> <p><u>1.2.3:</u> Provide technical support to strengthen health surveillance activities at Points of Entry.</p>						IOM has unimpeded, secure access to target groups, NFI supplies and transport/distribution services.
Outcome 2: Libyan authorities have enhanced their ability to coordinate and promote equitable access to COVID-19 vaccines in Libya, including amongst most vulnerable	Datasets/reports on mobile populations are available and shared with Libyan authorities	Project records	No	Achieved	Data on migrants and refugees shared with MOH based on which vaccination deployment plan was developed	Data on most vulnerable mobile populations and their locations is available to Libyan authorities

mobile populations						
Output 2.1. Contribute data on mobile populations to Libyan authorities, to inform development of a microplan for all government administrative levels to guide the vaccination campaign	a) Number of datasets/reports on mobile populations available and shared with Libyan authorities	Project records	N/A	2 datasets	2 data sets	Libyan authorities are willing and cooperative in their project involvement. IOM can access target beneficiaries and follow up with them.
Activities that lead to Output 2.1: 2.1.1: Conduct an assessment to provide data and analysis on migrant and refugee populations, to inform vaccination campaign planning and implementation. 2.1.2: Data and analysis on migrant and refugee populations is made available to inform vaccination campaign planning and implementation.						IOM has unimpeded, secure access to target groups.
Output 2.2: Libyan authorities have the capacity to implement a COVID-19 vaccination campaign.	a) # of MoH and NCDC personnel trained on COVID-19 vaccination campaign implementation (disaggregated by gender and designation)	Project records	N/A	90 (disaggregated by gender and designation)	17 vaccine supervisors (all male) 186 vaccinators (36 male, 150 female) during cascade training	Libyan authorities are willing and cooperative in their project involvement with IOM.
	b) # of facilities that benefit from the provision of cold chain equipment	Project records	N/A	15 (listed by locations)	20 facilities (locations)	

<p>Activities that lead to Output 2.2:</p> <p><u>2.2.1:</u> Provide technical support to the three taskforces responsible for cold chain/vaccine logistic management, capacity building and the demand creation.</p> <p><u>2.2.2:</u> Identify and target migrant-dense localities in east, west and south Libya, and provide trainings on vaccination campaign implementation to MOH and NCDC personnel.</p> <p><u>2.2.3:</u> Provide cold chain equipment to support vaccination campaign implementation.</p>					<p>3 consultants hired and supported taskforce,</p> <p>Vaccination training conducted in 9 municipalities,</p> <p>Cold chain equipment supplied</p>	<p>IOM has unimpeded, secure access to target groups, NFI supplies and transport/distribution services.</p>
